ABHA Number

ABHA Number or Ayushman Bharat Health Account Number is a 14-digit unique number for each citizen that connects you to the national digital health ecosystem.

ABHA App

ABHA app is a personal health record application that allows you to Link, View & Manage your health records like lab reports, prescription, vaccination certificate etc., share these with registered practitioners, search nearby registered healthcare professionals and health facilities etc.

Healthcare Professionals Registry (HPR)

HPR is a comprehensive repository of healthcare professionals like doctors, nurses, paramedics, and other healthcare professionals across all the systems of medicine, both modern and traditional

Health Facility Registry (HFR)

HFR is a comprehensive repository of health facilities across different systems of medicine that include public/private hospitals, clinics, diagnostic labs & imaging centres, pharmacies etc.

Unified Health Interface (UHI)

UHI is an open network designed to enable interoperable digital health service delivery. UHI will be powered by protocols built by an open community of developers and deployed on a gateway built by the NHA.

Core components of ABDM
