

Dr. Basant Garg, IAS
Additional Chief Executive Officer

D.O. No. S-12019/122/2021-NDHM-Part(2)
12th August 2024

Dear colleague,

In Ayushman Bharat Digital Mission (ABDM), Health Facility Registry (HFR) is one of the core building blocks that aims to be a comprehensive repository of health facilities of the country across all systems of medicine. It encompasses both public and private health facilities including hospitals, clinics, pharmacies, etc. The creation of HFR for all health facilities is the first step towards the digitization of the health ecosystem in the country. At present, 3.20+ lakh health facilities are already registered in HFR. Another key building block of the ABDM is Healthcare Professionals Registry (HPR), which is a comprehensive repository of registered and verified practitioners delivering modern as well as traditional healthcare services across the Country. Till date, more than 4.56 lakh healthcare professionals have registered on HPR.

2. National Health Authority (NHA) is continuously engaging with all the councils and associations across all systems of medicine to sensitize them about the registration of Health Professionals and Health Facilities on the HPR and HFR. **In this regard, it is requested that all the State Medical Councils and Associations, kindly recommend their registered healthcare providers to register themselves on the HPR and register their healthcare facilities on HFR at <https://nhpr.abdm.gov.in/home>.** The councils/associations can publish this information on their website or communicate it in periodic national/state/district level meetings/events. Registration on HFR is also essential to avail the benefits of the Digital Health Incentive Scheme (DHIS) which aims to incentivize the stakeholders of the digital health ecosystem and to give further boost to digital health transactions in the country. More details about DHIS can be found at <https://abdm.gov.in/DHIS>.
3. It is also informed that NHA regularly conducts webinars to demonstrate the HFR registration process to all the concerned officials in the state, national councils and associations across all systems of medicine.
4. In case of any further queries or support, Shri Vikram Pagaria, Director (Coordination) may be reached at dir.coord@nha.gov.in or facility@nha.gov.in.

Yours Sincerely,

Regards,

(Dr Basant Garg)

To,
